# StreetRCM

**Revenue Cycle Management  
Built for Community Based  
Organizations**

StreetRCM is an integrated Medicaid and Medicare billing solution embedded directly within your case and care management system. Designed specifically for Community Based Organizations (CBOs), StreetRCM streamlines your revenue cycle while keeping client care at the center of everything you do.

## Why StreetRCM?

Community organizations shouldn't have to choose between delivering quality services and managing complex billing requirements. StreetRCM combines both seamlessly.

### **Fully Integrated with Case & Care Management**

No more disconnected systems. Billing workflows are embedded directly within PlanStreet's platform.

### **Medicaid & Medicare Expertise**

Purpose built for government reimbursement models, compliance requirements, and documentation standards.

### **End-to-End Revenue Cycle Management**

From eligibility verification to claims submission, denial management, and payment reconciliation, we handle it all.

### **Real-Time Financial Insights**

Track claims status, reimbursement trends, aging reports, and revenue performance from one dashboard.

### **Compliance Driven Documentation**

Ensure accurate coding and documentation aligned with payer requirements.

# What StreetRCM Delivers

- Automated claims generation from service documentation
- Electronic claims submission & tracking
- Denial management & appeals support
- Payment posting & reconciliation
- Credentialing support
- Audit-ready reporting
- Dedicated RCM service team

## Built for Community Based Organizations

StreetRCM supports organizations serving:

- Behavioral Health
- Substance Use Treatment
- IDD Services
- Foster Care & Child Welfare
- Community Mental Health
- Social Services Agencies

## The Result

- Faster reimbursements
- Reduced administrative burden
- Improved compliance
- Increased financial sustainability
- More time focused on client care

**One Platform,  
One Partner,  
Complete RCM.**

With StreetRCM,  
billing is no longer a  
back-office burden.  
It's a strategic  
advantage.
